

Sustainability & Leadership

A Global Pharmaceutical Company..

Transforming Lives...

We're on course to transform the practice of medicine through breakthrough science and make a positive impact on our people and the communities we serve. Aaquaries Global Industries Limited's API business supplies high quality affordable APIs to leading generic formulations manufacturers across the world, enabling them to accelerate access to affordable medicines for patients worldwide. We are the preferred API partner to pharma companies across the US, Europe, Latin America, Japan, China, Korea and emerging markets.
