

Incepted in 1996, SIRO embarked on a mission to redefine drug development and discovery solutions. Today, it stands tall as one of the most experienced clinical research service providers, offering an innovative bouquet of CRO services. Here's a snapshot of SIRO's remarkable journey:

27 years of Experience:

A testament to their unwavering commitment to excellence.

~200 Dedicated Employees:

The heart and soul of their operations, driving innovation.

296 Trials Conducted:

A rich tapestry of research contributing to medical advancements.

20 Therapeutic Areas Covered:

Addressing diverse healthcare needs.

10,000+ Medical Writing Documents Submitted:

Meticulous attention to detail and communication.

97 Audits Cleared:

A reflection of their steadfast commitment to quality.

But what truly sets SIRO apart is its client-centric approach. SIRO is a versatile service provider, offering services across various business models, including Full service, FSP and Standalone/Individual project outsourcing. SIRO has been a trailblazer in exploring alternative geographies for clinical trials, expanding possibilities for research.

Service Offerings encompass a wide spectrum, all compliant with ICH-GCP standards:

- Clinical Project Management and Planning
- Clinical Data Management and Biometrics
- Clinical Monitoring
- Medical Services (Medical Monitoring and Drug Safety)
- Feasibility Services
- Clinical Quality Assurance and Compliance Auditing
- Clinical Trial Supplies (CTS) Management
- Regulatory Liaison and Consulting
- Extensive Medical Writing Services
- Comprehensive Medical Communications
- SIRO's commitment to excellence extends to off-shore Full service/FSP models.
