

### Mr. Nitesh Gupta

Managing Director  
Vinir Engineering Private Limited

#### How would you describe the journey of your company since its inception?

Vinir Forge (Engineering) Pvt Ltd: A Legacy of Innovation, Excellence, Strategic Growth and Expansion. Our journey began in 1984 as a small, first-generation company with a clear vision: to deliver superior engineering solutions. The early years were challenging but crucial.

Today, Vinir Forge is an integrated (certified 'Green') Forge Shop and Machine shop having manufacturing locations at Bangalore and Hosur in India (Unit 1, Unit 2, Unit 3 and Unit 4) We are a third generation, 40-year-old, family-owned but professionally-run company with around 550 employees, catering to the needs of the Oil and Gas sector, Defense, Aerospace, Mining, Railways, General Engineering, Wind Power, Energy, Hydraulics, Earth-moving, Off-highway, Water Treatment, Transmission etc.

Unlike many of our peers, we excel in executing small volume orders, handling difficult raw material grades, and producing heavy forgings with

short lead times. Our expertise spans various forging techniques, including closed-die, open-die, ring rolling, and radial forging, both in forged and machined conditions.

#### What are some of the key products / services offered by the company?

Vinir Forge (Engineering) Pvt Ltd boasts extensive capabilities in producing high-quality forgings in forged and machined condition, catering to diverse industry needs, as below:

1. Closed Die Forgings - upto 1400 kgs/pc in various conditions, including rough, proof machined, or fully machined.
2. Open Die Forgings - Upto 15,000 kgs/pc in rough, proof machined, or fully machined conditions.
3. Ring Rolling - Upto 4500 mm on Wagner/Banning ring rolling machines.
4. Radial Forging - Using GFM machines.
5. Machining Facilities - Equipped with advanced machining facilities upto 5 axis machining, we finish machine all forged parts to meet precise customer requirements.
6. All other facilities of heat-treatment, testing etc are in-house.

#### What are company's initiatives to drive sustainability practices for business operations?

Vinir Forge (Engineering) Pvt Ltd is committed to integrating sustainability into all aspects of our business operations.

Vinir Engineering holds ISO 9001 and TS 16949 quality management system certifications, ISO 14001 environmental management system certification, ISO 45001 occupational health and safety certification, ISO 50001 energy management certification, API 20 C and PED certifications, and AS 9100 D aerospace quality management system certification.

#### How is the company gearing towards "Atmanirbharta"?

Vinir Forge (Engineering) Pvt Ltd proudly supports India's vision of "Atmanirbharta" (self-reliance) and is a strategic supplier to the MoD and all customers that it serves.

With a deep sense of national pride, we integrate our state-of-the-art infrastructure with strong collaboration with domestic suppliers, strengthening the supply chain with high-quality, locally sourced materials. Our initiatives are driven by a commitment to contribute significantly to the nation's self-reliance and economic growth, fostering a stronger, more resilient India. ■
