

THE SUPREME INDUSTRIES LTD

...A journey beyond excellence

Since 1942
Supreme[®]
People who know plastics best

Embark on an 80-year journey and stepping into the ninth decade. The Supreme Industries Limited, originating as a Mumbai-based venture, focused on economic self-reliance. The Taparia family took charge in 1966, steering the Company towards monumental growth by honing in on plastics as the core business.

Today, Supreme stands as a pioneering conglomerate in India's Plastic Products arena, boasting 30 state-of-art plants nationwide, including a 132-acre manufacturing complex at Gadegaon, and a cutting-edge R&D center. Handling about 6,50,000 tonnes of polymers annually, it's the India's leading plastics product manufacturer, offering a wide and comprehensive range of plastics products in India. The company operates in various product categories viz. Plastic Piping System, Cross Laminated Films & Products, Protective Packaging Products, Industrial Moulded Components, Moulded Furniture, Storage & Material Handling Products, Performance Packaging Films and Composite LPG Cylinders.

Supreme's growth narrative is fueled by a dedication to innovation, ethical wealth creation, and active participation in the nation's development. This eight-decade journey is marked by milestones, record-breaking performances, diversification, and expansions.

Driven by accumulated capitals, Supreme propels growth, unlocking value with top-tier talent, state-of-the-art technologies, unwavering R&D, quality commitment, and people-centric passion for service. With a turnover exceeding Rs. 10,000 crore, the Group employs over 5,500 individuals, establishing leadership across its 8 business verticals.

Supreme's influence extends globally, with products exported to over 60 nations. The company's growth foundation is rooted in a steadfast commitment to understanding customer preferences and environmental responsibility. Upholding sustainability, the Group aims to reduce carbon emissions by 60000 tons annually, increasing renewable energy usage from 20% to 35% and usage of Solar Power capacity to 42 Mwp by March 2025. Serious efforts are also underway to reduce water footprint through re-use and recycling.

Supreme remains focused on financial prudence, continues to increase its share of value-added product sales, increased usage of green and renewable energy, and takes pride in its core values which inter alia includes integrity & ethics, customer centricity, uncompromising quality of product & services, continuous innovation & development and people empowerment.

Supreme believes in highest level of corporate governance and empathy with all stakeholders. Safety, Environment and Sustainability always remain key focus areas.

Supreme is strategically poised to meet the demand for high-quality plastic products both in domestic and international markets, shaping its growth aspirations while maintaining a commitment to a sustainable future.
